Natural

Words are like seeds; when planted
in the fertile soil of creativity,
they grow into the forests of
inspiration

The design for the North House is guided by the principle of stille, a sense of calm and quiet that creates space for intentional living. Drawing inspiration from natural materials and Melbourne's unique light, the interiors embrace simplicity while offering depth and warmth.

The beauty of classic words lies in their ability to transcend generations, speaking to the hearts of all who encounter them
